Important notes

FIELDWORK

Interviews **MUST** be done at the exit of the store, never at the gates or the IDL. You can recruit outside store and take respondent to a seat.

All interviews **MUST** be conducted in English and **MUST** be done Face to Face, No self-completion.

Incentives will not be used. According to our experience they have not been necessary.

QUOTAS

VERY IMPORTANT: Buyer/Browser quota, as well as nationalities, MUST BE achieved well compensated during the whole fieldwork. Do not approach any target in particular unbalancing the rest of them.

We must make sure to complete the interviews gradually, it is not valid doing all the buyers and then looking for browsers at the end or vice-versa because the results would be bias and not be valid.
